Overview

This 3 day course will cover the current management of pain interventions within a multidisciplinary framework.

The format will consist of short presentations, keynote lectures dealing with controversial topics with an extensive proportion of the time spent on cadaver demonstrations. The small number of participants will ensure the delivery of an individually tailored programme.

The course is suitable for doctors in Pain Medicine, Anaesthesia, Radiology, Orthopaedic Surgery, Neurosurgery and Palliative Care.

Objectives

To present a balanced approach of the different procedural interventions used in Pain Medicine. The recent advances in the diagnostic and treatment of chronic pain conditions secondary to degenerative or neurological disease will be presented by keynote speakers. Through discussions the delegates will benefit from a faculty assembled from many leading Pain Centres.

Faculty members

Dr Steve Amaresekera	Mrs Bev Hudson
Dr Shyam Balasubramanian	(Course Organiser)
Dr Arun Bhaskar	Dr Sandeep Kapur
Dr Swarupsinh Chavda	(Course Organiser)
Dr Surabhi Choudhari	Dr Andrej Kroll
Dr Ron Cooper	Dr Abdul Lalkhen

Interventional Pain Management Cadaver Workshops

Cranio-cervical, thoracic, lumbar and pelvic interventions
Neuromodulation – spinal and peripheral
Musculoskeletal ultrasound guided interventions
24–26 October 2018

Wednesday 24 October 2018

Technical lectures and workshops

- Radiofrequency ablation of the lumbar facet joints
- Radiofrequency ablation of the thoracic facet joints
- Lumbar nerve root blocks
- Thoracic nerve root blocks
- Epiduroscopy
- Cervical epidural
- Vertebroplasty
- Hypogastric plexus block
- Neuromodulation
- US guided procedures (lower limb, abdomen, lumbar area)

Thursday 25 October 2018

Workshops

- Thoracic splanchnicectomy
- Disc procedures
- Pudendal nerve block
- Genicular nerve blocks
- Lumbar sympathectomy
- Sacroiliac joint procedures – intraarticular injections, denervation
- Neuromodulation
- US guided musculoskeletal procedures (upper limb, trunk)

Friday 26 October 2018

Workshops

- Radiofrequency ablation of the cervical facet joints
- Cervical nerve root blocks
- Cervical disc procedures
- Stellate ganglion block
- Trigeminal and sphenopalatine ganglion interventions
- Neuromodulation – spinal and peripheral lead placement
- Advanced neuromodulation
- Freestyle sessions
- US guided musculoskeletal procedures (head and neck)

****Please note** that the program is flexible. The timing of the workshops may change due to demonstrator/equipment availability.**
